## PREFACE

This is the twentieth Saint Thomas University Fact Book that has been published. In accord with convention nationwide, the St. Thomas Fact Book continues to focus on statistics associated with the Fall semester enrollment. The Fact Book has and should continue to serve as the official reference document for University statistics to support grant applications, for completing surveys and questionnaires from external agencies, in press releases, etc. The content and layout was designed to support planning and decision-making.

The Fact Book contains a wealth of information and all readers are encouraged to familiarize themselves with the types of information it contains. Narrative and graphic summaries are provided for quick reference. Graphs are used to present the trend information for the convenience of those who prefer visual representations to data tables. Complete data on which the graphs are based are also presented in tables for the more detail-oriented reader.

In order to facilitate analysis of trends over time, a special section with graphic summaries of selected trends in key areas such as enrollment, numbers of graduates, etc. has been retained in this edition of the Fact Book. The data were compiled from university Fact Books for the period 1989-2010. Trend data for other selected statistics can be found in other sections of the Fact Book also.

All data relating to student demographics and enrollments were obtained from student records in the Registrar's module of the Colleague computer data base. Discrepancies from comparable data independently reported by St. Thomas University usually reflect the normal drift associated with a dynamic data base, differences in terms included, or differences in the definition of variables compiled. The information reported in this publication accurately reflects student data as recorded in the university data base at the benchmark date of October 15.

Prepared by:

**Dr. Jerry Weinberg**
**Director, Institutional Research**

# HISTORY AND DEVELOPMENT

St. Thomas University was founded in 1961 as Biscayne College by the order of Augustinian Friars. The college was accepted as a member of the Southern Association of Colleges and Schools and first accredited by the Commission on Colleges in 1968. Through continued growth and development Biscayne College earned university status in 1984 after the addition of ten Master degree programs and the opening of the Ambassador Nicholas Morley Law Center.

When university status was attained, the name of the institution was changed to St. Thomas University to reflect its Cuban heritage. The University is the successor institution to the Universidad de Santo Tomas de Villanueva which was founded in Havana, Cuba in 1946. This has in part made St. Thomas a magnet University for the Cuban sector of the growing Hispanic community in Miami and the south Florida area. The University came under the sponsorship of the Archdiocese of Miami in 1988 conferring St. Thomas with the distinction of being the only Catholic Archdiocesan sponsored University in the State of Florida.

St. Thomas University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award Bachelor, Master, and Juris Doctor degrees.

St. Thomas University Law School is the only accredited Catholic law school south of Georgetown University's School of Law in Washington, D.C. The law school at St. Thomas was fully accredited by the American Bar Association in February, 1995 and offers the Juris Doctor degree (J.D.) as well as the Doctor of Science of the Law degree (JSD) and Master of Law degree (LL.M).

# MISSION STATEMENT OF ST. THOMAS UNIVERSITY

St. Thomas is a Catholic university with rich cultural and international diversity committed to the academic and professional success of its students who become ethical leaders in our global community.

## CORE VALUES

- Catholic identity
- Global diversity
- Student success
- Leadership development

## VISION STATEMENT

St. Thomas will build upon its position as the leading Catholic university in the Southeast by developing, through its academic programs, recognized global leaders in ministry, science, business and justice, and will serve as a model resource that prepares its students to engage in the business, legal, social and scientific universe of the global community.
