Dissertation Completion and Conferral Due Dates by Term

Below are the important dates/timelines for the Dissertation Defense, Graduation application dates, and Due dates for submission of the Final Committee Approved Dissertation to the Library for Final Review. Final submissions to the library must include all signatures, appendices, and any other documentation required for a complete submission of the dissertation. Please see your Dissertation Manual for more details about these requirements. Failure to provide a complete submission may cause delays and missed deadlines which may cause the conferral of degrees to be pushed to the next term. Please pay close attention to these dates and give yourself ample time to complete your final defenses and submissions.
