this is a really fun game i do enjoy the overall mechanics of it aside from a few things i ve noticed and i would recommend honestly good social media games have giveaways every now and again when events drop that would be awesome instead of a one time deal for each app i think players should get some rolls on the events link i found this appealing with other games i ve played also the friends list what s up with it trying to

find my social media friends and it's not finding them or adding them when i send the link even if they are playing is grieving very frustrating to try and figure it out when it's impossible another i've noticed is if you have people on your friends list i think they should be avoided to bank roll them if they are part of the team they should be excluded from heists etc which brings me to the next i've noticed and that's if they take money the correct amount taken i've sat side by side and more money was taken from me than was told to the player taking the money not fair not for player 1 or player 2 honestly think if these little suggestion could be incorporated it would be flawless still though 5 stars for me if this doesn't happen and the link instead opens up a separate tab on your browser and doesn't redeem try refreshing that page and see if the pop up menu appears you can also try clicking on the link again and see if that triggers the menu if none of these troubleshooting tips work try closing and then re opening the monopoly go app so it's running in the background then head back here and try clicking on the link again to see if that kicks things into gear. In practice, this trend reflects a qualitative shift in the way the issue is being addressed.

to redeem one of the links above simply click on it on the device you have monopoly go installed on when you click on the link in your browser you'll be taken to a new webpage and asked if you want to open it in monopoly go at this point i'm only still playing because my niece loves it she still asks us to spend money on the game to let her keep playing but it is a complete waste the mini games such as the bank heist are rigged i have screenshots of hitting the same icon in the first three tries multiple times it's almost always the mid tier the coin machine that thing is a ripoff i have recorded it

deliberately sending coins through the same useless route every single time you hit a button this game is set up to entice you to spend real money but don't it is 100% a waste you can't even hit the quick wins half the time yesterday I had one win left it was land on chance two times with 320 dice left I landed on chance exactly once if I could get my niece to stop playing I'd quit in a heartbeat I'm tired of the games from my childhood being used to get kids to rip us off on cell phones now I'm tired of the developer doing absolutely nothing about the people who complain about the odds in their game I have screen recordings showing the piece moving too many or too few times based on what was rolled I have screen recordings showing that your minigames are rigged it's a little difficult to claim that it's all random when the same things happen over and over and over again oh and Scopely is so shady that they make you jump through flaming hoops to contact their customer service their sugary responses are insulting have you just tried claiming a monopoly go dice link and it didn't work dice links can only be redeemed once per monopoly go account so if you click on a link and get a message that says this reward has already been claimed then that means you've redeemed it previously if you get a message that says this reward cannot be claimed then that means one of two things this error message appears when a link has expired or when a link has just been released and you need to close and re-open your monopoly go app to get it working keep checking back here we are constantly updating this page with the latest links and removing links when they stop working if you're a monopoly go player you know the thrill of rolling the dice to determine your fate in the game those dice rolls can make or break your strategy but what if I told you that you could get unlimited free dice rolls to boost your chances of success yes it's possible and in this guide we'll show you how to do just that.
